## Climate & Sustainable Leaders Czech Republic

Data collection and ranking questionnaire

Your company details

Company name: \_\_\_\_\_

Main field of business: \_\_\_\_\_

Please, state the company emissions in tonnes of CO2 and according to the GHG protocol.

Scope 1 - Total direct GHG emissions:

\_\_\_\_\_

If you have a quote for the individual parts of Scope 1, please list them below:

**Fugitive emissions** (Emissions associated with leakages of gases with greenhouse gas potential)

\_\_\_\_\_

**Stationary combustions** (Combustion emissions from production and operation)

\_\_\_\_\_

**Vehicle combustions** (Emissions from internal combustion engines of transport vehicles)

\_\_\_\_\_

Scope 2 - Total indirect GHG emissions from energy:

---

If you have a quote for the individual parts of Scope 2, please list them below:

Emissions from the operation of own or company-controlled **electric vehicles**

---

Emissions associated with the consumption of purchased **electricity**

---

Emissions associated with purchased **heat**

---

Emissions associated with purchased **cooling**

---

Emissions associated with purchased **steam**

---

Do you currently have a calculation of the emissions covered by Scope 3?

Yes

No

If yes, what are your total Scope 3 emissions?

---

What areas did you include in the emissions calculation for Scope 3?

---

---

---

---

---

What standard did you use to calculate the emissions?

- GHG Protocol
- ISO 14001
- I don't know
- Other: \_\_\_\_\_

Has the emission calculation been verified according to the ISAE 3000 audit standard?

- Yes
- No
- I don't know

What emission factors did you use in your calculations?

- IPCC
- DEFRA
- AIB/EIB
- I don't know
- Other: \_\_\_\_\_

Over what period was your company's emissions calculated?  
(Please, state in format "From DD.MM.YYYY to DD.MM.YYYY")

---

What revenues did you achieve during the carbon footprint calculation period (in CZK)?

---

By what percentage do you plan to reduce your carbon footprint by 2030 compared to 1990 levels?  
(%)

---

Do you have carbon footprint reduction targets set for the next 5 years (compared to today's values)?

- No, we do not plan to reduce our carbon footprint in the near future
- Yes, we are planning a reduction of up to 5 %
- Yes, we are planning a reduction of 5 - 10 %
- Yes, we are planning a reduction of more than 10 %
